

UiT The Arctic University of Norway

## Co-creation between municipalities and universities

Toril M. Ringholm

Professor, Public planning and cultural understanding

*[toril.m.ringholm@uit.no](mailto:toril.m.ringholm@uit.no)*

# From «research on» to «research with»

# The research council

Competence- and collaboration projects

- 1) Research projects for renewal*
- 2) Collaborative projects to meet challenges in society and industry*

# Important project criteria

- Mission oriented – addressing societal challenges
- Normally a research institutions as the lead partner
- Demands public and/or private sector participants
- Innovative potentials often highlighted
- Demands own financing to a varying degree

# Current frames

- 4 000 000-15 000 000 NOK'
- 2-4 years duration
- Thematic areas: Democracy, steering and renewal; Energy, transport and low emission; Ocean; Land based food, environment and bioresources; Enabling technologies; Education and competence; Cross-cutting themes

# Challenging, but rewarding

- How to interpret situations
- Learning about each others' way of working
- How to solve conflicts
- How to move forward
- How to identify the new solutions
